"IBS Bangalore is part of our carefully curated B-Schools, across the country, that we have had the fortune of being associated with, for our campus hiring needs. Over the years, we have hired several students from this prestigious institution for the coveted Tax profile in our firm, and we have observed the quality of their students - in terms of their subjective and technical knowledge, communication skills, and emotional quotient - to be consistently superlative. The faculty and staff of the institution have also been very cooperative with us and been relentless in ensuring that our recruitment events are carried out in a smooth and organized manner, not to mention that our lofty business demands were always catered to gracefully. We wish to continue our association with the institution over the years to come and we wish them all the very best!"

The two years that I have spent in the IBS Mumbai campus are the most precious 2 years of my life. IBS gives student a new horizon to learning in the way of case study approach with up to date course curriculum and the professors are industry stalwarts who makes the overall learning experience excellent and valuable.

IBS students are not only adaptable but also agile. They believe in their coach. They are very consistent, highly dedicated & devoted and come with abundant energy, which all organizations look forward to while hiring from campuses. What differentiates IBS from other B-Schools is that they engage with the recruiters through an year long process, not only for placements but for giving and receiving feedback, which is highly appreciated. I wish IBS and IBS students all the very best for the coming years.

'It was the first time that GHF ventured into Campus hiring and IBS Bangalore was among the first colleges that we tied up with. The experience was smooth, seamless and very pleasant. Philip was extremely approachable and was a great support throughout the placement process. In addition to this – the quality of the batch was also good. The students were enthusiastic, responsive and energetic. I can vouch for the batch quality considering how well the incumbent from IBS Bangalore is performing with us.'

The 2 years of my life at IBS Ahmedabad were most enriching year of my life. IBS-Ahmedabad guided me to focus my energy and efforts into the domain of my interest and was in line with my personal skill sets. The most fulfilling aspect was to be perpetually guided towards attaining practical knowledge of subjects. Earning my PGPM from IBS is one of my proudest accomplishments and the experience helped me grow as an individual, and gave me the knowledge and skills I needed for today's fast-paced world

In the changing world every day, it is important to adapt to change. With this context I would consider myself to be fortunate to be a part of IBS Kolkata, the esteemed organization which have seen changes over the past years but have always been agile to changes in preparing some of the best students who play a key role with their contributions to the development of the society and the business environment. IBS Kolkata have always extended the support to all the alumni members and have created a network that includes some of senior leaders and eminent personalities of the business world. So I would always recommend students that it is important to understand business rather than targeting CGPA. IBS Kolkata's approach to train students to get adapted to business challenges through case study approach is really worth mentioning and helped us all in seeing the business challenges from outside and work on the resolutions in context to the curriculum. This case study approach would help the students in finding solutions in their life at a later stage. So I would personally thank the entire esteemed team of IBS, Kolkata in building our lives and helping us to achieve success today.
